**House Bill No. 2400\***

By adding the following new sections immediately preceding the last section and by renumbering the subsequent section accordingly:

Section \_\_\_\_ (a) The general assembly recognizes that children who have been abused, who are dependent or neglected, or whose parents, for whatever reason, may be unable or unwilling to provide for their children's care are best served when they can be cared for by other suitable members of their families instead of placing those children in foster care with the state of Tennessee. It is further recognized that, while those relatives are often willing to provide for the care of children who can no longer remain with their parents, there may exist financial obstacles to the provision of such relative care, or there may be a need for other services to enable the children to remain with relatives in order to prevent those children's entry into the foster care system. It is the intent of the general assembly to assess, through the pilot program established by this chapter, the state's ability to assist families in providing care for related children so that those children need not come into the state's foster care system.

(b)(1) Subject to the availability of funding, the department of children's services shall establish and administer a series of pilot programs in Davidson and Shelby Counties and in one (1) or more rural counties. The pilot programs are to provide financial assistance and certain services to persons who are providing for the care of relative children who have been placed in their temporary legal custody by an appropriate court in the state of Tennessee.

(3) Two hundred fifty thousand dollars (\$250,000) shall be allocated in one (1) or more rural counties. The \$250,000 available to the rural county or rural counties will be awarded in a manner which will assure sufficient funds to implement the county's or counties' proposal. Funding for the pilot programs in the urban areas of Shelby and Davidson Counties shall be based on the percentage of foster care cases for children in state care as of July 1, 1999 relative to the total dollars available for the urban projects.

(c)(1) Subject to availability of funding, and as may be permitted by federal law or regulations governing the department of human services' Title IV-A block grant, the department of human services is specifically authorized to provide funding assistance from its Title IV-A block grant to the department of children's services for the development and operation of the pilot programs established pursuant to sections added to this act by this amendment by providing available funds which are not otherwise committed to or necessary for the provision of Families First services provided pursuant to Title 71, Chapter 3, Part 1.
